The instructor reserves the right to change this grading curve according to class performance. However, if a change does occur, required points for designated letter grades will never EXCEED those outlined above.

Exams

All exams are “closed book” and will consist of multiple-choice questions and/or problems. The exams cover all assigned material -- whether or not we actually discuss the material in class. Please bring a photo I.D. to the exam which you may be required to show to the exam proctors. Calculators may not be shared by students during exams. Exams are NEVER to leave the classroom. Removal of an exam from the classroom will result in an “F” for the course. You are always welcome to review your past exams in my office. After the exams have been graded, you will have two weeks to review your exam and report any grading discrepancies. All discrepancies not brought to the instructor’s attention in writing within the two-week period will not be considered.

Make-up exams will be given only under very rare circumstances beyond the control of the student (illness, family emergency, etc.) In all cases, the instructor must be notified **prior** to the exam. Failure to notify the instructor on a timely basis will result in a “0” for the exam. All excuses must be supported by proper documentation. If a make-up is granted, the exam will be scheduled at the discretion of the instructor. It may be more rigorous and will not offer bonus points. The final exam date is indicated on the attached assignment schedule so please make any travel plans accordingly.

CONNECT Concept Overview Videos

The purpose of the concept overview videos is to familiarize you with the core learning objectives for each chapter. These require you to watch a series of short videos and answer questions based on the video. You will have 1 attempt and may check your work on each question once before submitting. Each concept overview video assignment is worth 3 points. Your best 40 points will be counted toward your course grade (out of possible 42 points). These assignments are due at 9:00 the day we start covering a chapter (see CONNECT for actual due dates). No late assignments will be accepted.

CONNECT Homework

The purpose of these homework assignments is to reinforce your understanding of the various topics as well as give you “practice” for the exams. They are worth a substantial portion of your grade (20%) so it will be very difficult to do well in this class without completing the homework assignments. I recommend that you print out the assignment and manually complete it, including supporting computations and explanations. Once manually completed, enter your answer in CONNECT and check your work. If necessary, make appropriate corrections on the print-out as well as on CONNECT. The printed assignment with your supporting computations and corrections become a useful tool when studying for the exams.

All exercises/problems are given equal weight, regardless of length (each assignment will consist of multiple exercises/problems). For most problems you will have two opportunities to “check your work” before submitting it for final grading.

In general, CONNECT homework assignments are due every Wednesday at 9:00 a.m. Check CONNECT for actual due date /times and assignments. Computer problems/issues will not be an acceptable excuse for not submitting your homework on time except when it is a system-wide issue with CONNECT (so don’t wait until the last minute to do the homework).

CONNECT Smartbook

The purpose of the Smartbook assignments is to help you review some of the key concepts from each chapter. These assignments present questions covering various concepts; you will continue getting questions covering a particular concept until you have mastered it. Each Smartbook assignment is worth 3 points. Your best 40 points will be counted toward your course grade (out of possible 42 points). These assignments are due at 9:00 a.m. the day of each exam, however, I strongly recommend that you get them done earlier. No late assignments will be accepted.

Participation/Quizzes

You will be given problems (included in the lecture notes) to work on during class. To encourage students to spend time on these problems, I may randomly call on individuals to share their answers. On occasion, there may be a quiz (announced or unannounced) on material that we have already covered. Each quiz will be worth 10 points. There are no make-ups on participation or quizzes. Failure to have access to the lecture notes in class will lower your participation score.

Professionalism

At the discretion of the instructor, deductions (up to 5 points for each incident) may be made for behavior that is deemed unprofessional or for lack of participation in class activities/discussions. Examples of unprofessional behavior include disruptive behavior in class (please turn off cell phones and use the restroom prior to the start of class), and chronic tardiness.

Use of laptop computers during class for class-related work is fine. However, the use of computers and/or other electronic devices during class for non-class-related activities (including working on homework assignments during class) is considered unprofessional behavior. Students in violation of this rule will no longer be allowed to bring those items to class.

Preparing for Class

Lecture notes are provided on Lualima in pdf format. In most cases, these areas are definitions or explanations of items that are important for the chapter. You should look up the definitions or explanations and complete that portion of the notes prior to coming to class; we will talk about some of those items, but you will not have time in class to “copy” the definitions.

Attendance

Any student having more than 3 unexcused absences will receive a drop in letter grade; students with more than 5 unexcused absences will receive an “F” for the course. Determination of whether an absence is excused is at the discretion of the instructor on a case-by-case basis. If you are absent, it is your responsibility to find out what was covered in class from one of your classmates, including any missed announcements. In addition, no make-ups will be given on quizzes, and no late homework assignments are accepted. Finally, priority during office hours will be given to those who attend class regularly.

If you arrive late (once lecture has started), it is your responsibility to see the instructor at the end of class so your attendance record can be updated.

Tutoring available

Free tutoring will be offered during the semester by Beta Alpha Psi students via zoom. Beta Alpha Psi is a national honor society for financial information (accounting, finance, ITM) students. The schedule will be announced in class.

Important dates
