**“PACE@RISE: Building a
Vibrant Hub for Innovation &
Student Success”**

Sandra Fujiyama
Executive Director

From humble beginnings to global recognition, PACE has been a catalyst for innovation and entrepreneurship at UH Mānoa.

Explore the latest developments at PACE, including the Walter Dods, Jr. RISE Center, a new 100,000+ sq. ft. building that integrates PACE’s programs with a 10,000 sq. ft. innovation center and student housing to create a cutting-edge live, learn, work environment, the first of its kind in Hawai‘i, and one of only five at this scale across the U.S.!

Join fellow alumni and learn how PACE is developing a dynamic innovation hub at RISE and empowering the next generation of problem-solvers.
